Aprons

Bib Aprons

Functional and economical, the classic bib apron, made of spun poly, continues to be one of the most popular choices for back-of-house and baristas. They provide sufficient protection for clothing and can be adaptable to match any body type. Our utilitarian bib aprons slip over the neck and tie around the waist. They cover from chest to knee and do not have pockets. Bib aprons are great for kitchen, maintenance, dish washing, or cleaning staff who are more prone to splatter.

Waist Aprons

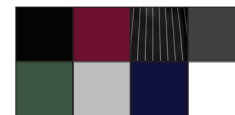

Waist aprons are simple small aprons that tie around the waist. These aprons, made of spun poly, provide adequate protection for your lower body. Waist aprons are often used in a variety of environments, especially in diners and restaurants. They are very comfortable to wear, and you can adjust them to make them easily fit any body type. They allow a complete range of movement. Our waist aprons feature three pockets for holding pads and pens, etc. Choose half bistro aprons if customers require more protection for clothing without losing the freedom of movement that waist aprons afford.

Bistro & Half Bistro Aprons

A long bistro apron or half bistro apron adds a little flair to the standard wait staff uniform. Worn primarily by front of the house staff, both styles protect clothing below the waist and allow for the curation of a unique style with branded shirts, vests, and ties. Aprons tie around the waist, falling just above the feet (full bistro apron) or just below the knees (half bistro apron). Both are made of 65/35 polyester/cotton twill. Our half-bistro apron has two large patch pockets, while our full length apron has one large side pocket with a handy pen pocket. All pockets large enough for the essentials — checkbook, pens, and cash. With eight popular colors choose from for the half bistro (three for full bistro), it is easy to match restaurant branding.

Route Ready Bar Mops

Why waste time washing and counting bar mops? Route Ready bar mops are optically white and packed by the bale. 48 bags of 25 bar mops means you never have to pre-wash or recount them prior to use. Typically, laundries save at least 70¢ per dozen by freeing washroom and finishing floor operators from a wash cycle. You gain more production time to focus on other laundry room bottlenecks.

Precut Washed Rolls

Precut Washed Rolls are pre-cut pieces of multiple-layered cheesecloth featuring 24" x 20" thread. Precut Washed Rolls are lint-free and more absorbent than traditional single-ply cheesecloths. Most often used in wiping applications where soft, strong, lint-free and particulate-free absorbent cloths are required.

Purified Cheesecloths

Purified 100% woven cheesecloth rolls are ideal for wiping sensitive instruments and surfaces. The open weave of purified cheesecloth snares residue, so particles wiped from surfaces are hooked into the open weave construction of the wiper (rather than being pushed around). Use harsh solvents without fear of the fibers breaking down. Perfect for non-abrasive window polishing, preparing surfaces for painting, and dusting critical electronics. Low-linting purified cheesecloth contains no chemicals or foreign bodies found on even the purest new mill end rags.

Cleaning is a Virtue with Virtu-Clean® Disposable Cleaning Pads

Charge once, even coverage, and a cleaner floor.

Not all cleaning pads are equal. Absorbency rates, release rates, coverage, and linting can vary greatly, significantly impacting the finished product. Our disposable, single-use mop pads check all the right boxes – they hold more liquid, release that liquid at a controlled rate over a larger surface area, and reduce friction for more effort-free cleaning.
