SPOT & STAIN REMOVAL

- 1- Identify your spot and reference the spotting chart.
- 2- Always pre-test the spotters on an inconspicuous carpet section before using.
- 3- Apply the spotter to the effected area and blot and tamp with a white clean towel. Do Not Rub!
- 4- Always work from the edge to the center of the stain.
- 5- Repeat if necessary until the stain is gone.
- 6- Rinse with clean water and blot dry.

Remove stains promptly after they occur and avoid over-wetting of carpets or fiber surfaces.
