500 tampons per case, each enclosed in a paper tube for vending.

THESE TAMPONS PROVIDE GREAT PROTECTION AND COMFORT TO THE USER. TAMPON BENEFITS INCLUDE EASE OF EXPULSION AND A NATURAL FIT BY EXPANDING IN THREE WAYS.

Manufactured in the U.S.A. under F.D.A. regulatory requirements.

Are Our Tampon Ingredients Safe?

Yes, our tampons can be used safely. Tampax® has helped millions of women to live their lives during their periods since we were founded in 1936. Tampax has always been there to protect you for your most important moments, and that protection begins with your safety. Our tampon safety assessments and ingredients have been reviewed by independent experts including physicians, university scientists, and health authorities who oversee tampon safety and they have confirmed that our tampons can be used safely. In fact, many women don't know that tampons are medical devices in the U.S., so they are required to meet the strict safety expectations of the U.S. Food and Drug Administration (FDA).
