SPHERGO SWIVEL®

SPHERGO SWIVEL® Mopping Tool

- The Sphergo Swivel® unique curved pole positions the user's body posture optimally to reduce repetitive strain injuries
- The rotating ball handle reduces unnecessary wrist motion while improving grip and control
- The curved pole paired with rotating ball on the handle allows for effortless smooth mopping "S" motion
- Sphergo Swivel® curved pole allows for farther reach underneath low-clearance obstructions like beds, chairs, and desks relative to a tradition straight mop while eliminating awkward bending
- Lightweight aluminum trapezoid frame design provides easier access into corners and along baseboards while making pad removal effortless
- The base's rounded edges help prevent any damage to sensitive areas such as wood trim or wooden furniture legs
- Replaceable hook and loop strips

Rotating ball handle allows for improved grip and control.

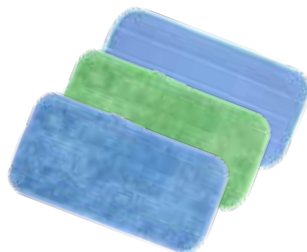

Curved pole allows for farther reach under beds, chairs and more.

Trapezoid frame design provides easier access into corners.

Pre-saturated Cleanroom Wipes

- Reduce the use of squirt bottles and dipping cans
- Reduce the amount of isopropyl alcohol used
- Use the exact percentage of IPA each application
- More even distribution of alcohol on the wipe and hence the wiping process
- Fewer VOCs (Volatile Organic Compounds)
- Safer to use, ship, and store than flammable liquids
- Convenience: No pouring, spraying, filtering, or diluting

A 70% concentration of ethanol or isopropyl alcohol has been demonstrated to be the most effective. Water acts as a catalyst and plays a key role in denaturing the proteins of vegetative cell membranes. The water content slows evaporation, therefore increasing surface contact time and enhancing effectiveness.

Aircare Simplified

The AirWorks® Complementary Air Care System

Solutions included in the complementary system are marked with this symbol in the odor control section.

No client should ever smell anything unpleasant anywhere in any facility. Cleanliness of the restroom is one of the most important factors in the overall patron perception of an establishment. A poorly maintained restroom can turn clientele away from an establishment permanently.

Every commercial enterprise should incorporate some form of ambient scenting as part of its marketing strategy to increase traffic and customer satisfaction. The AirWorks® Complementary Air Care System is created with products that have corresponding fragrances of varying intensities, creating a uniform scent throughout the space.

AirWorks® SPLASH FREE® Max Urinal Screen

- Stays fresh up to 60 days!
- Urinal screen extends up the back wall to prevent backplash from the most targeted area of the urinal
- Helps avoid offensive splashing inside and around the urinal keeping both the facility and the patron clean and dry
- Designed for full-sized wall-mount urinals; flexible EVA material
- Urinal screens contain enzymatic drain cleaner to reduce build-up in drains
- Screen is 6.5" wide x 14.75" long

Attaches securely with 3 suction cups

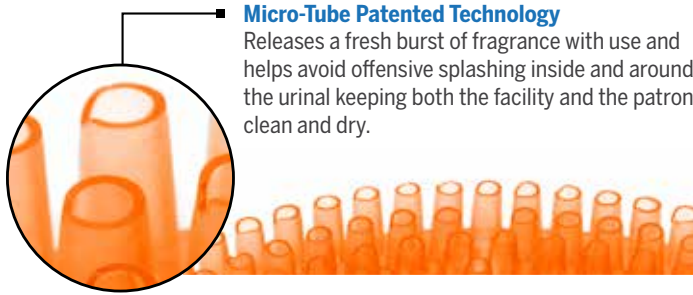

Tear-out incorporated in screen to accommodate drain dome cover

AirWorks® SPLASH FREE® Urinal Screen

- Unique draining system in every micro-tube, leaves the screen residue free
- Stays fresh for up to 30 days with continuous odor control
- Material formula contains enzymes to prevent unpleasant odors
- Screen prevents the passage of debris into drains, helping to prevent costly plumbing repairs
- Flexible EVA material with raised feet on bottom, for use in both dry and standing water urinals
- VOC compliant in all 50 states

Micro-Tube Patented Technology

Releases a fresh burst of fragrance with use and helps avoid offensive splashing inside and around the urinal keeping both the facility and the patron clean and dry.

Take public restroom hygiene and convenience to the next level

Menstrual Care Dispensers

Most dispensers now come standard with a free Scensibles® Disposal Bag Dispenser. They are marked with this symbol in the personal care section.

Redefining a well appointed public restroom

With no-touch sink faucets, soap dispensers and hand dryers being a standard in many public restrooms and automated toilet seat cover dispensers becoming an emerging trend, the Evogen® No-Touch Menstrual Care Product Dispensers further promote a sanitary environment guests will appreciate.

Hospesco Brands Group developed the first and only no-touch menstrual care product dispensers to vend complimentary pads and tampons effortlessly, making public restrooms more hygienic and reducing the spread of germs and illnesses. The touch-free design provides greater convenience, creating a more upscale atmosphere and enhanced customer experience.

Evogen® No-Touch Dual Menstrual Care Product Dispensers

- FREE vend only in large capacity (EVNT3) for high traffic restrooms and compact (EVNT4) size for smaller restrooms
- Modern, streamlined ADA-compliant design with easy loading and re-stocking

The Ultimate Hands-Free Menstrual Care Product Dispensing Solution!

The new Evogen® Tri-Vend High-Capacity No-Touch Menstrual Care Product Dispenser from Hospeco Brands Group provides three solutions at once. First, the one-of-a-kind dispenser improves comfort and convenience for patrons with greater product choice and an inviting, hands-free experience; second the unit allows staff to spend less time stocking product; and, finally, the modern, hands-free dispensing action helps prevent the spread of germs and illness by eliminating yet another contact point in the restroom.

This innovative, high-capacity dispenser takes public restroom hygiene and convenience to the next level by vending tampons and pads to guests, free of charge. The dispenser has capacity to hold 36 pads and 50 tampons at the same time. Pads can be 36 of the same kind or 18 each of two different kinds, for added customer choice.

Product vends when patrons present their hand in front of the sensor. When the sensor has engaged, the dispensing area alights with purple glow providing a comfortable assurance the dispensing process has begun.

Evogen® Tri-Vend High Capacity No-Touch Menstrual Care Product Dispenser

- The Evogen® Tri-Vend High Capacity No-Touch Menstrual Care Product Dispenser is designed to reduce the spread of germs and illnesses in public restrooms.
- Dispenses both pads and tampons, free of charge. A national movement is advancing the fact that these products should be treated just like toilet paper, towels, and soap—a necessity, not a luxury.
- This high capacity dispenser is ideal for high traffic restrooms in airports, arenas, amusement parks, casinos and more.
- Increased capacity cuts down on service time for maintenance staff, translating into cost savings and efficiency.
- The touch-free feature contributes to creating a more upscale atmosphere by enhancing guests' overall comfort and experience.
- Dispenser requires (4) C batteries (not included)
- U.S. Patent # 11,141,328

Factory programmed 5 second time delay between dispenses to discourage malicious use.

Free Scensibles® Disposal Bag Dispenser Now Comes Standard with Most Period Product Vendors.

Menstrual care products are a necessity. So is proper disposal. Hospéco Brands Group is now the only maker of menstrual care products for the away-from-home market that packs a safe, sanitary disposal method, free, with most product vending machines. Under the new program, customers who order D1 and Evogen® sanitary pad and tampon dispensers get a free Scensibles® dispenser and Scensibles® personal disposal bag refill pack, in specially marked cartons.

Lightly scented, Scensibles® disposal bags have easy tie handles to safely dispose of used menstrual care products and feature a built-in antimicrobial additive that inhibits the growth of odor-causing bacteria on the bag, helping to keep restrooms smelling fresh. Refillable and compact, the bag dispensers are imprinted with instructions for use, making it clear not to flush products down the toilet.

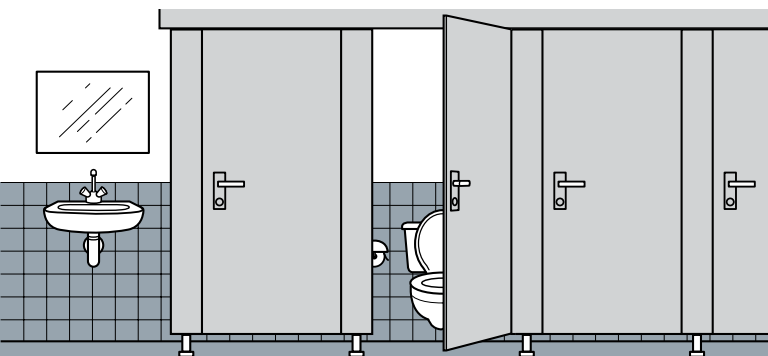

Free Scensibles® Disposal Bag Dispenser

SDW-KIT mounts easily on the side of the dispenser.

Vendor cartons including the SDW-KIT are specially marked with this label. QR code links to installation video.

The positive impact the disposal bags have on restroom sanitation — should encourage building owners to add Scensibles® to every stall.

- SecureFit360® liner bags fit EVNT-CWR, CDWM, CDSS, ND-1E, ND-1W, 250-201W

Pleasant fresh fragrance helps to eliminate odors.

New and improved high density polyethylene material provides a formed and snug fit. The 12 micron/.47 mil thickness adds maximum strength and performance. Frosted to mask contents yet still allows cleaning staff to see and avoid potential needles and other sharps. Environmentally Friendly - sends up to 50% less material weight to landfills than kraft waxed paper bag liners.

SecureFit360® poly liner bags are custom designed with a unique strap that wraps around the bottom of the receptacle to secure in place. The 7.5 inch wraparound strap is used as a handle to eliminate the need to reach into receptacles to remove the liner. Simply pull up on the strap for safe removal of the contained and concealed contents.

The new and improved standard in toilet seat cover systems

Toilet Seat Covers & Dispensers

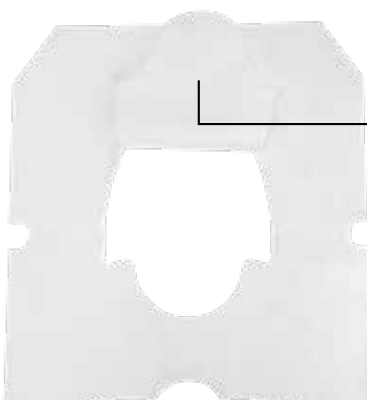

Now even better! The first and ONLY hands-free toilet seat cover system

Introducing the patent-pending Evogen® High Capacity No-Touch Toilet Seat Cover Dispensing System. New increased capacity translates into cost savings with less service time required to maintain. The system is fully contained, that is, there is no unhygienic pre-displaying of product. Instead, all seat covers are kept clean inside the dispenser. Then, with a wave of the hand, a single cover is dispensed automatically. And the seat cover is presented from the dispenser in full and ready to use – not folded and no tabs to tear.

Customers expect hands-free technology in the restroom. It's time the toilet seat cover joins the higher level of customer expectation. That's the Evogen® High Capacity No-Touch Toilet Seat Cover Dispensing System – hands-free satisfaction.

Evogen® High Capacity No-Touch Toilet Seat Cover System

- Eliminates plumbing problems caused by malicious use - patrons glomming a handful from an open dispenser
- Empty indicator light
- Easy front load access for refill
- Similar foot print to existing dispensers
- Improves the image of the restroom
- Extended battery life – only operates when dispensing (uses 4 "AA" batteries - not included)
- Holds 2 packs of refills, up to 250 seat covers
- Increased capacity cuts down on service time for maintenance staff
- Thicker and heavier paper for superior sanitary barrier
- Unfolded and "ready-to-use" direct from dispenser
- No tabs to tear reducing time, embarrassing noise, and waste resulting from either tearing the seat cover and/or dispensing more than one.
- Covered by one or more of the following US Patent Nos. 10,888,203 and 11,109,724

Auto flush tongue flushes seat cover down with the water

The right sorbent for every spill

Sorbent Types

Standard universal sorbents absorb both oil and water based fluids. Typically gray in color. Best choice for most indoor spills.

Oil Only Sorbents absorb oil/ hydrocarbon based fluids and repel water. Typically white in color. Most effective when used outside.

Hazmat sorbents are also universal and absorb aggressive chemicals or unknown spills that can be both oil and water based. Yellow is a universal color for safety and caution and provides high visibility. The color coding will easily identify these sorbents in an emergency and warns that hazardous fluids may have been absorbed into the product. These sorbents can withstand chemicals and will keep compliance with a growing number of local, state and federal regulations. For indoor and outdoor use. *Hazmat Sorbents available upon request.*

Sorbents that have recycled content are marked with this symbol in the sorbent products section.

Sorbent Formats

Sorbent Pads are the fastest way to clean up a spill and the most popular format

Sorbent Rolls are designed primarily to cover large areas and walkways.

Socks are used to soak up or create a barrier to contain the spill.

Pillows are used to absorb leaks too large for a pad.

Booms are an ideal solution to contain and absorb large spills in water and on land.

Drum top pads absorb fluids that result from messy drips and spills from the drum dispensers.

Rugs and mats can be used on walkways that may often be wet, for safety purposes to provide good traction.

Emergency response spill kits help prepare any facility with everything needed for fast response to unexpected spills.

Truck spill kits are compact and can be easily stowed for convenient access when a spill occurs.

Sorbent Technologies

Meltblown

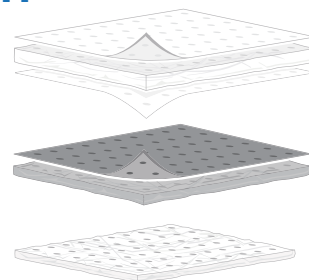

Made from 100% polypropylene. Most commonly used sorbent technology. Available in oil only and universal.

Sorbent Construction

Fine Fiber Increases absorbency rate, wicking, capacity, and fluid retention.

Lamination adds strength and reduces linting.

Sonic Bonded will enhance sorbent durability.

Sorbent Weights

Weight is chosen based upon amount of fluid to be absorbed and required sorbent durability.

 Light weight (150-199 gsm) Great for small leaks and spills.	 Medium weight (200-249 gsm) Very absorbent but not as durable as heavy weight.	 Heavy weight (250-299 gsm) The industry standard with added durability and absorbency.	 Extra heavy weight (300-440 gsm) Premium and durable for heavy duty applications.

Hotel Makeup Removal Towels

Makeup towels are quickly becoming popular with hotels because they extend the life of the hotels' white towels. Guests will typically remove their makeup using any readily available terry cloth. Oily residue then saturates the white terry towels, and that residue transfers to other white towels in the wash. Black makeup removal towels allow laundry operators to wash them separately. This means that your white towels are less likely to become dull over time due to makeup. Any optical blemishes will be hidden by the black towel, and the towels give hotel bathrooms an upscale appearance. Towels with "Makeup" embroidered in white.

Sheets & Bedding

Host & Home T180 Sheet Collection

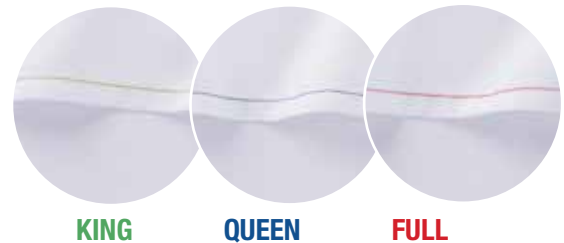

These 180 thread count white sheets are constructed with a 55/45 cotton/poly blend. The sheets are more durable than cotton sheets but still retain a soft hand feel. Our institutional sheets are softer than other imports at a more competitive price point.

Power Gym Towels

Our 6 lb single-stripe white power gym/pool towels are comparably priced to similar towels and punch way above their weight. The bold Power Towel line is softer and more absorbent, with brighter whites and deeper colors than typical striped institutional bath and hand towels. The distinction is in the details.

- Yarn: Power Towels are made from virgin fiber 12S Autocoro yarn.
- Construction: Power Towels' loop pile is low, uniform, and tight, with more loops-per-square-inch than competitive towels.
- Color & Brightness: Power towels are more consistent because we vat dye the center stripe

Aprons

Mariposa Linens® Bib Aprons

Functional and economical, the classic bib apron, made of spun poly, continues to be one of the most popular choices for back-of-house and baristas. They provide sufficient protection for clothing and can be adaptable to match any body type. Our utilitarian bib aprons slip over the neck and tie around the waist. They cover from chest to knee and do not have pockets. Bib aprons are great for kitchen, maintenance, dish washing, or cleaning staff who are more prone to splatter.

Mariposa Linens® Waist Aprons

Waist aprons are simple small aprons that tie around the waist. These aprons, made of spun poly, provide adequate protection for your lower body. Waist aprons are often used in a variety of environments, especially in diners and restaurants. They are very comfortable to wear, and you can adjust them to make them easily fit any body type. They allow a complete range of movement. Our waist aprons feature three pockets for holding pads and pens, etc. Choose half bistro aprons if customers require more protection for clothing without losing the freedom of movement that waist aprons afford.

Route Ready Bar Mops

Why waste time washing and counting bar mops? Route Ready bar mops are optically white and packed by the bale. 48 bags of 25 bar mops means you never have to pre-wash or recount them prior to use. Typically, laundries save at least 70¢ per dozen by freeing washroom and finishing floor operators from a wash cycle. You gain more production time to focus on other laundry room bottlenecks.

EasyTask® GrabBox® Refillable Cleaning System

- Add any cleaning or disinfectant solution to one of our wiper options for a durable wet wipe. Clean and disinfect hard non-porous surfaces in one step!
- Eliminates cross contamination on surfaces – use a new wipe each time
- System reduces vapors and fumes caused from cleaning/disinfecting solutions
- GrabBox® contains wipers in a resealable bag within the portable heavy-duty cardboard box
- GrabBox® features a convenient carry handle for transporting wipers
- Resealable bag keeps wipers moist
- Holds 1/2 gallon (2 quarts) of liquid
- Chemical Identification Panel printed on box so you can easily fill-in and identify the solution used to make your pre-moistened wipe.
- To prevent possible contamination, wet wipes should not be returned to the resealable bag once they have been removed

Spunlace Wipers

- Wipers are perforated on a centerfeed roll
- Durable and low lint
- Excellent tear strength
- Solvent resistant
- Roll size: 6.375" diameter x 10" high
- Roll not compatible with EasyTask® Bucket

Simply add cleaning or disinfectant solution to the bag inside the GrabBox® to **create your own durable wet wipe.**

Note: Please follow the recommended guidelines and kill claims on any chemicals used to make the pre-moistened wipe.

Prep, Paint and Finish Cloths

Essential Tack Cloth

- Step 1, Option A
- Low-linting fabric combined with optimum level of "tackifier"
- Stretch cloth to release more tack for longer use
- Effectively removes dirt and sanding dust
- Minimizes potential for tack transfer and residue
- Flexible fabric conforms to the surface and enables access to hard to reach corners
- Wax and silicone free
- Great alternative to traditional woven gauze material
- Laser sealed edges for non-fraying edges

Item#	Description	Color	Size	Selling Unit
N-PFT100QPG	1/4 Fold, Poly in Box	Green	12" x 18"	1/pk - 12 pks/bx - 12 bxs/cs

Original Tack Cloth

- Step 1, Option B
- Heavy "tackifier" – picks up and traps high levels of dirt and sanding residue
- Traditional cotton gauze style fabric
- More surface area – can even be fluffed into a ball
- Boosts productivity – peels apart easily so you can start working fast

Item#	Description	Color	Size	Selling Unit
N-PFT2008PN	1/8 Fold, Poly in Box	Natural	18" x 36"	1/pk - 12 pks/bx - 12 bxs/cs

Wash & Dry Prep Cloth

- Step 2 & 3
- For use with waterborne or solvent based solutions
- Will not bleed with waterborne or solvent based solutions
- Large and super-absorbent
- Virtually lint-free
- Excellent strength (wet and dry)
- No added binders or glues that can contaminate your work
- Silicone free

Static Control Wipe

- Step 4
- Pre-saturated wipe with 70/30 blend (70% isopropyl alcohol, 30% de-ionized water)
- Reduces static charge, minimizing the attraction of dirt
- Cleans surfaces thoroughly to lower the risk of paint defects
- Ideal for moderate temperature and/or humid conditions
- Usually used 30 minutes prior to base coat
- After applying, let air dry completely before painting base coat

Item#	Description	Color	Size	Selling Unit

Final Tack Cloth

- Step 5
- Light "tackifier" – removes dust and over-spray between coats of paint
- Stretch cloth to release more tack for longer use
- Laser sealed edges for virtually no fraying or linting
- Users report it reduces static buildup on plastic parts and other surfaces
- Proven successful with waterborne paint systems
- Does not leave residue on hands or surfaces

Purified Cheesecloths

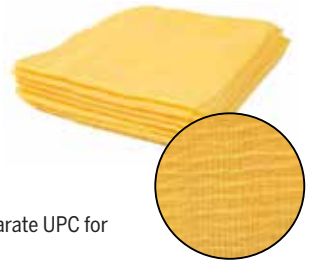

- Purified 100% woven cheesecloth rolls are ideal for wiping sensitive instruments and surfaces
- The open weave of purified cheesecloth snares residue, so particles wiped from surfaces are hooked into the open weave construction of the wiper (rather than being pushed around)
- Use harsh solvents without fear of the fibers breaking down
- Perfect for non-abrasive window polishing, preparing surfaces for painting, and dusting critical electronics
- Low-linting purified cheesecloth contains no chemicals or foreign bodies found on even the purest new mill end rags

Microfiber Cloths

Hospesco™ SmartRags® Microfiber Cloths

- Each dispenser holds 50 cloths in a neat, easy to store container that keeps unused microfiber cloths clean.
- Seamless edged 80 Polyester 20 Polyamide Microfiber is as effective as hemmed microfiber, and is less likely to scratch surfaces as there is no hem, or care label
- Heat sealed edges prevent fraying
- Color-coding mitigates the possibility of cross-contamination
- Durable enough to wash up to 150 times but economic enough to dispose of after one use
- Great for janitorial utility carts, office supply closets, workshops, garages, and breakrooms
