

THE NEW STANDARD

IN TOILET SEAT COVER SYSTEMS

New Evogen® High Capacity No-Touch Toilet Seat Cover Dispenser The first and **ONLY** hands-free toilet seat cover system.

Evogen® No-Touch - Now even better

Ninety percent of people wouldn't use a public toilet without making sure that the toilet seat is clean and free from possible disease transferring germs. This is a very personal measure of your facility - your brand. And even if your restroom meets the clean-enough standard, customers prefer to touch as few surfaces as possible in the restroom. Touch-free is a mind-set.

Introducing the new patent-pending Evogen® High Capacity hands-free toilet seat cover dispensing system. Increased capacity translates into costs savings with less service time required to maintain.

The system is fully contained, that is, there is no unhygienic pre-displaying of product. Instead, all seat covers are kept clean inside the dispenser. Then, with a wave of the hand, a single cover is dispensed automatically. And the seat cover is presented from the dispenser in full and ready to use — not folded and no tabs to tear.

By design, the Evogen® No-Touch toilet seat cover utilizes the highest quality flushable paper for a superior sanitary barrier.

Customers expect hands-free technology in the restroom. It's time the toilet seat cover joins the higher level of customer expectation. That's Evogen® No-Touch — hands-free satisfaction.

No paper jams and no empty dispensers.

Great for long-term relationships between distributors and end users, the Evogen® No-Touch covers are tailor made for true one-at-a-time, automated dispensing and, as such, no alternative seat cover will dispense from the Evogen® No-Touch dispenser. Lights alert maintenance staff when batteries or seat covers are running low.

The first and ONLY hands-free toilet seat cover system now even better

Power indicator light inside unit to the left of the battery housing

- Green Light - Full power no battery change required.
- Orange Light - Half power - just an alert.
- Red Light - Replaces all 4 AA Alkaline batteries

EVOKEN® HIGH CAPACITY NO-TOUCH TOILET SEAT COVER SYSTEM

Toilet Seat Cover Dispenser

- No-Touch – hands free dispensing
- Dispenses one toilet seat cover at a time
- Enclosed cover ensures clean and sanitary toilet seat cover
- Eliminates plumbing problems caused by malicious use - patrons glomming a handful from an open dispenser
- Empty indicator - A flashing red light on the front of the dispenser indicates you need to refill the dispenser
- Easy front load access for refill
- Similar foot print to existing dispensers
- Improves the image of the restroom
- Extended battery life – only operates when dispensing (uses 4 “AA” batteries)
- There is a power indicator light to the left of the battery housing that will alert staff when it is time to replace the batteries (refer to inset)
- Holds 2 packs of refills, up to 250 seat covers
- Increased capacity cuts down on service time for maintenance staff
- Covered by one or more of the following US Patent Nos. 10,888,203 and 11,109,724

Item #	Description	Selling Unit	Case Pack
Dispenser			
EVNT1-HCW	White ABS, 17" x 12" x 3.125"	1 ea	4/cs

Toilet Seat Covers

- Thicker and heavier paper for superior sanitary barrier
- Unfolded and “ready-to-use” direct from dispenser
- No tabs to tear reducing time, embarrassing noise, and waste resulting from either tearing the seat cover and/or dispensing more than one.
- Auto flush tongue flushes seat cover down with the water
