What Exactly is "Microfiber"?

Microfiber is a synthetic fiber that is less than one denier, which is a measurement of 10 micrometers in diameter. The fibers are most commonly made with polyester, polyamide, and polypropylene.

When the fabric is dyed, the microfiber is also "split". This process, whereby a chemical solution is used to break down the fibers in a controlled manner, causes the fibers to develop microscopic "pores" which increase liquid absorption and the attraction to dirt and dust.

T0030-00 (front)

T0030-00 (back)

Antimicrobial Microfiber Mop Pad, 18"

- Improved cleaning performance: The antimicrobial microfiber pad features multidirectional scrubbing capabilities that effectively remove dirt, grime, and stains from floors and surfaces, providing superior cleaning performance and leaving surfaces spotless and streak-free.
- Enhanced absorbency: The microfiber inner liner of the pad provides improved absorbency, allowing it to hold more liquid and clean more efficiently than foam-lined pads. This helps to reduce the number of passes required to clean a surface, saving you time and effort.
- Prevents cross-contamination: The color-coded tabs on the pad help prevent cross-contamination by making it easy to assign specific pads for different areas, reducing the risk of spreading bacteria and other contaminants.
- Antimicrobial protection: The antimicrobial properties of the pad prevent the growth and spread of bacteria, ensuring that your cleaning tools stay clean and hygienic, and reducing the risk of infection and illness and reducing odor.

LAUNDRY INSTRUCTIONS

COMMERCIAL WASHING: HOT WATER METHOD

- Wash in hot water (160°F/71°C) for 25 minutes¹
- Use above chart to select appropriate capacity setting

COMMERCIAL WASHING: COLD WATER METHOD

- Wash in cold water
- Use above chart to select appropriate capacity setting

COMMERCIAL DRYING

- Dry cloths and mops on low heat (130°F/54°C) setting
- Store dry cloths and mops in clean storage containers.

REQUIRED CARE

- Do not store microfiber in a washing machine overnight
- Do not use fabric softener in the wash cycle
- Do not use dryer sheets in the dry cycle
- Do not wash microfiber cloths or mops with other textiles

Dusting with Microfiber!

Use the cloth dry for all your dusting needs! Microfiber cloths are statically charged so they attract dirt, pet hairs, dust balls and microparticles like a magnet. Once the cloths attract dust and dirt it actually remains trapped in the grooves of the cloth itself so the particles are not just re-scattered in the air like with ordinary dusters.

HOW TO USE 8-SIDED FOLDS with Microfiber Cloths

NOTES: Color-coding can prevent cross-contamination, so assign each color of cloth to a specific area and task. Do not over-saturate cloths. Follow all established safety procedures. Don all appropriate Personal Protective Equipment (PPE).

1. Begin with an open, clean microfiber cloth.

2. Fold your microfiber cloth in half.

3. Fold microfiber cloth in quarters, resulting in a square-shaped pad with four layers of cloth.

4. Clean surfaces with the two exposed sides of the microfiber cloth. Track the side used for each surface while cleaning.

5. Open microfiber cloth once to change sides.

6. Refold to expose two fresh cleaning surfaces. Track the side used for each surface while cleaning.

7. Open the cloth fully once four surfaces have been used and expose four fresh surfaces.

8. Repeat steps 2 through 7 to use all eight sides.

Microfiber Dual-Textured Bar Towel

Two sides with alternate ribbed patterns double the usefulness of this towel.

- Ribbed side has deep channels, trapping larger particles for heavy-duty clean up
- Smooth side is ideal for lighter jobs like dusting or wiping down surfaces
- Part of a Green Clean system due to less water and chemical usage
- Removes 99% of bacteria with water alone
- Synthetic fibers are resistant to bacteria growth

ITEM	DESCRIPTION	SIZE	CS QTY
LFRT1000	White	14 in. x 17 in.	12/bg; 15bg/cs

Microfiber Waffle Weave Bar Towel

Virtually lint-free, this woven design provides excellent surface contact.

- Absorbs more than seven times its weight in liquid, much more than conventional bar towels
- Extremely durable - will last through hundreds of wash cycles
- Microfiber is resistant to bacteria growth

ITEM	DESCRIPTION	SIZE	CS QTY
LFWT1000	White	14 in. x 17 in.	12/bg; 15bg/cs

Mesh Laundering Bag

Perfect for containing your mopping and towel products while laundering.

- Drawstring closure secures bag contents
- Use this bag to protect your launderable cleaning items
- Synthetic material allows for quick drying

ITEM	DESCRIPTION	SIZE	CS QTY
CH015	White	16 in. W x 33 in. H	12/cs

HOW TO USE MICROFIBER LAUNDRY

1. Clean the laundry machines daily, before the first use.

2. Separate microfiber cloths and mops from other textiles.

3. Wash microfiber cloths and mops in a laundry net to manage inventory.

4. Determine detergent and maximum load size using the chart below.*

Washer Size	Max Volume	Detergent Load**	18"/45cm mops per load
60 lb / 27.2 kg	71.8 gal / 272 L	1.5 oz / 44.4 mL	130
81.6 lb / 37 kg	97.8 gal / 370 L	2.0 oz / 59.2 mL	175
101.4 lb / 46 kg	121.3 gal / 459 L	2.5 oz / 73.9 mL	220
125 lb / 56.7 kg	150.6 gal / 570 L	3.1 oz / 91.7 mL	270
141.4 lb / 64.3 kg	169.6 gal / 642 L	3.5 oz / 103.5 mL	305
174.8 lb / 79.3 kg	201 gal / 761 L	4.2 oz. 124.2 mL	375

*Machine settings can be established by chemical provider.

**Represents 1/2 the average manufacturer's detergent recommendation. Using full amount of detergent can result in hazy floors.
