Cause Supported

January 2023

-Beginning in March 2020 as a local support group in response to the pandemic, The Kindness Collaborative quickly expanded its mission and grew into a local kindness movement with nearly 7,000 members all working together to spread kindness and community support wherever it's needed throughout Massachusetts.

-Although the Kindness Collaborative started off as a general community support group to support those experiencing Food Insecurity, we quickly realized those who are food insecure, are most likely Hygiene Insecure as well and this became part of our mission as well.

Wilahmena's Place Inc. www.wilahmenasplaceinc.org

- Wilahmena's Place Inc. distributes hygiene kits to both children at Boston Public Schools & elderly group homes in Massachusetts and will be combining the cases of Health Guards (wipes) she received with packages of Depends & other items to drop off individual care packages to seniors in need.

Hope & Comfort and our partner organizations greatly appreciate these much-needed products that are helping those we serve to stay healthy, confident & clean!

All the best,
Sean
