

Nebraska LB 1050

Empowering Students: Access to Free Menstrual Products

1. Legislative Bill 1050 requires school districts to provide menstrual products to students at no charge.
 - a. The State Department of Education shall make available to each school district the appropriate number of menstrual products and dispensers required by each school district.
 - b. The State Board of Education shall develop a formula for use by school districts in determining the appropriate number of menstrual products to request for each public school building based on the number of school bathrooms in the public school building, number of students of menstruating age attending the school building, and the average number of menstrual hygiene products that would be necessary during a school day for such students.
2. **Qualifications:** Middle and high public schools
3. **Timeline:** Beginning the school year 2025-2026
