

New York S.5910-B/A.4060A

A Step Towards Universal Access in Public Colleges

1. New York S.5910/A.4060 requires all public colleges and universities to provide free-of-charge menstrual products in school buildings.
2. **Qualifications:** All public colleges and universities
3. **Timeline:** This act shall take place immediately
4. **Funding:** Not Available

By recognizing menstruation as a natural biological function, this law seeks to eliminate barriers that could hinder students' academic success. Access to these essential products will help ensure that no student is forced to miss class or face undue stress due to the inability to afford or obtain menstrual supplies, thereby promoting a more inclusive and supportive learning environment.
