**HOSPECO® AirWorks® 3.0 Passive Air Care
Dispensing System**
“Clears the Air” in the Workplace

*11 fragrance choices with no propellants, no dripping, no
leaking*

CLEVELAND—February 5, 2019—When clients and customers come calling, the last thing they want to experience are the odors caused by your processes—or your people. That’s why pleasant-smelling ambient air is a crucial, but often overlooked, part of projecting a positive image. HOSPECO®, celebrating 100 years in 2019, offers AirWorks® 3.0 Passive Air Care Dispensing System as its newest innovation in passive air care—providing a consistently fresh and inviting environment while meeting the needs of business owners and cleaning staff.

Whether it’s odors in the restroom, near a musty basement, or due to manufacturing process byproducts traveling under doors, the AirWorks 3.0 Passive Air Care Dispensing System fights back to create a pleasant-smelling workplace that’s hassle-free.

Available in 11 scents, AirWorks 3.0 contains Metazene® brand molecular odor neutralizer. Fragrance liquid flows from the inner core through a specially bonded wick and is diffused into the air at a higher rate with no propellants, dripping, spilling, or leaking.

Each refill lasts up to 60 days and covers 5,000 cubic feet of ambient air. Refills come in a recyclable container and are VOC-compliant. Sleek, compact dispensers are available in white or black, and feature Timestrip® to keep track of when it is time to change the cartridge. Dispensers also feature a bottom-load refill system and require no batteries for easy maintenance.

In celebration of its 100th year, HOSPECO has introduced a new scent for AirWorks 3.0—fresh linen. Other fragrances include mango, fruit basket, orchard spice, citrus grove, fresh garden, sunburst, vineyard, midnight sky, lavender meadow, and cucumber melon. All HOSPECO AirWorks fragrances are part of the company’s complete, complementary air care line, including urinal screens, bowl clips, hangtags, metered aerosols, Scensibles® menstrual care disposal bags, receptacle liners, and more.

If you want to know more about complementary air care products for your facility, call HOSPECO for more information on their complete AirWorks® Air Care line.
