## Hospeco Brands Group Introduces EasyTask® GrabBox® Refillable Cleaning System *Add cleaning solution of your choice, make your own wet wipe*

CLEVELAND—September 1, 2020— We’re living in a time where regular cleaning and disinfecting of surfaces and surroundings is more important than ever before. Unfortunately, there are widespread shortages of some cleaning supplies. If finding a pre-moistened wipe with your preferred cleaning solution for your facility is so difficult, why not make your own? Hospeco Brands Group, a leading manufacturer of personal care, cleaning, and protection products serving the “away from home” marketplace, has come up with a bold answer to that question.

Hospeco Brands Group’s **EasyTask® GrabBox® Refillable Cleaning System (N-ETA100)** gives you control over the supply chain. Each sturdy box is lined with a durable bag containing a perforated centerfeed roll of 275 high-quality wipes that can be filled with your disinfectant or cleaning solution of choice, saturating the wipes inside. The resealable bag holds a half-gallon of liquid and keeps wipes moist. To help ensure safety and efficacy, there’s a blank chemical identification panel printed on each grab-and-go box to easily fill-in and identify the solution used to make the pre-moistened wipe. The GrabBox® handle makes the cleaning system easy to carry between workstations.

The durable, low lint wipes have excellent tear strength, are solvent resistant, and come in two spunlace finishes. Smooth is for pre-moistened applications, and creped is for pre-moistened and dry applications. They work on hard, non-porous surfaces across a range of vital public spaces striving to remain open in the face of a global pandemic. Examples include schools and universities, healthcare facilities, restaurants, offices and government buildings, retail stores, hospitality, public transportation, and many more.

The **EasyTask® GrabBox® Refillable Cleaning System (N-ETF310)** is also available in a quarter-fold version using our popular Deluxe Antimicrobial wiper especially effective for lunchroom and break-room applications.

Simply add cleaning or disinfectant solution to create your own durable wet wipe. Either GrabBox is a convenient, versatile way to clean, disinfect, and help fight back against viruses, bacteria, and germs. Refill packs are also available in each put-up – 6 bagged refills per case.
