Introducing WetWorks® +Plus Pre-Saturated Surface Disinfecting Wipes

Powerful disinfectant kills 99.9% of bacteria in 15 seconds

CLEVELAND—April 5, 2021— On the heels of late last year’s release of WetWorks® Pre-Saturated Cleaning Wipes comes a powerful line extension with a fast-acting disinfectant that kills 99.9% of bacteria in just 15 seconds. New [WetWorks® +Plus Pre-Saturated Surface Disinfecting Wipes](#) feature a powerful EPA-registered disinfectant that quickly kills common dangerous bacteria like *Staph*, *E.coli*, *Listeria*, and *Klebsiella pneumoniae*.

Hospeco Brands Group’s made-in-the-U.S.A. WetWorks line of cleaning wipes allows the company to combat supply chain issues that have riddled the cleaning and sanitization market since the onset of the COVID-19 pandemic.

The powerful disinfecting wipe is intended for use in hospitals and healthcare/dental settings, laboratories, offices, shopping centers, catering facilities, corrections facilities, critical care areas, schools, beauty salons/barber shops, tattoo/pmu studios, transport vehicles, veterinary clinics, gyms and more. WetWorks® +Plus has also demonstrated effectiveness against viruses similar to 2019 Coronavirus (SARS-CoV-2) on hard, non-porous surfaces.* Therefore, this product can be used against SARS-CoV-2 when used in accordance with the directions for use against Human Coronavirus on hard, nonporous surfaces. (Please refer to the [EPA website](#) for additional information.)

The hospital-grade, bleach- and alcohol-free dual-chain quaternary cleaner in WetWorks +Plus also kills cold and flu virus on hard non-porous surfaces.

Wipes are safe for most surfaces. Each roll contains 800 wipes measuring 8”x 6” which are loadable into either a wall-mounted or floor-style dispenser. Adjustable pull tension dispenses one wipe at a time, reducing waste and saving money. The transparent cover makes it easy to see when wipes are low, so sanitation is never sacrificed. The company’s floor-style dispenser comes with a discreet wastebasket to encourage patron use and safe disposal.

**WetWorks® +Plus Wipes are an effective virucide on hard, non-porous surfaces against Human Coronavirus (ATCC VR-740) when treated surface is allowed to remain wet for 10 minutes. Allow surfaces to air dry.*

About Hospeco Brands Group

Wherever people go to work, shop, dine, learn, or seek medical care, their lives are touched daily by Hospeco Brands Group. The company makes products that protect, sanitize, clean, and provide care and comfort to millions around the globe.
