Introducing WetWorks® Pre-Saturated Cleaning Wipes *Perfect for routine cleaning of frequently touched surfaces*

CLEVELAND—December 15, 2020— Pre-moistened cleaning wipes are hard to come by these days. As the number of cases of the novel coronavirus began to climb quickly in the U.S. in March, keeping public spaces meticulously clean is every facility manager's job No. 1, with multiple cleanings per day becoming the norm for high-traffic, high-touch areas.

Hospeco Brands Group™, a leading manufacturer of products that protect, clean, and provide care and comfort to millions around the globe, has introduced a powerful new solution—in stock and available through the company's distribution channel. New and widely available [WetWorks® Pre-Saturated Cleaning Wipes](#) make clean-up easy with a single-dispense, 8.4" x 6" wipe that contains a hospital-grade quaternary formula. They're perfect for fast wipe down of high-frequency touchpoints like doorknobs, light switches, handles, phones, desks, keyboards, faucets, and other hard surfaces.

WetWorks® Pre-Saturated Cleaning Wipes come 800 to a roll and can be loaded into either a wall-mounted or floor-style dispenser. Adjustable pull tension dispenses one wipe at a time, reducing waste and saving money. The transparent cover makes it easy to see when wipes are low. Floor-style dispenser comes with discreet wastebasket to encourage patron use and safe disposal.

Wipes are made in the U.S.A., pre-saturated for easy, one-step cleaning, and are bleach-free, alcohol-free, and phenol-free. They can be used to wipe down a variety of surfaces and equipment in an endless array of environments, including schools, colleges, and universities, hospitals, grocery stores, restaurants, military facilities, gyms, fitness centers, and health clubs, and many other institutional settings.

About Hospeco Brands Group

Wherever people go to work, shop, dine, learn, or seek medical care, their lives are touched daily by Hospeco Brands Group. The company makes products that protect, sanitize, clean, and provide care and comfort to millions around the globe. Solutions for and barriers against germs, bacteria, and harmful substances are vital weapons in the battle for public health and safety. Hospeco Brands Group products make workplaces, businesses, schools, and other public facilities safer and more comfortable through categories such as personal protective equipment (PPE), cleaning equipment and supplies, facility and floor care, odor control, restroom comfort, and menstrual care.
