Introducing the New Evogen® EV1 Menstrual Care Product Dispenser
Delay mechanism eliminates misuse of free vend product

CLEVELAND—September 12, 2017— The effort to make menstrual care products available where they are needed most—public restrooms—takes a giant leap forward with HOSPECO's newest menstrual care product dispenser. Responding to market demand, the [Evogen® EV1](#) dispenser is now re-engineered with a free vend delay mechanism to discourage misuse. It's now easier than ever for operators of public restrooms to do the right thing and offer these critical products.

The largest capacity dispenser of its kind, Evogen holds both tampons and pads. Each is dispensed with the simple push of a button. If programmed for free vend, the new delay function automatically discourages multiple products from being taken, reducing waste and preserving more product for other patrons.

Evogen dispensers make stocking and dispensing more convenient than ever before. The dispensers' modern, streamlined styling is attractive and easy to use. To load, staff just opens the door and slides in products—easy loading promotes consistent stocking. ADA-compliant push-button dispensing makes Evogen dispensers accessible to all who need these products. An easy to see lighted indicator alerts staff when the dispenser needs refill.

HOSPECO® offers the most complete bundle to complete the well-appointed public restroom — from product dispensing to safe and hygienic disposal.

For too long, menstrual care products have inexplicably been left off the list of necessities customers expect to be offered in restrooms. Increasingly, a national movement is advancing the fact that these products should be treated just like toilet paper, towels, and soap—a necessity, not a luxury. HOSPECO is proud to join with other [Period Partner™](#) groups in standing up for people's menstrual needs.

The EV1 dispenser is available in powder-coat white finish or stainless steel and, in addition to the free vend option, is also available with a \$0.25 vend option. HOSPECO offers a full line of cleaning and protection products to serve the janitorial, industrial supply, foodservice, healthcare and hospitality markets. Learn more at www.hospeco.com.

About HOSPECO
